

Work & Travel Abroad: Earn, enjoy & experience the world

If you've got an adventurous outlook, an insatiable curiosity about the world, and a strong desire to live and work abroad, then our Work & Travel opportunities are suited especially to you. While many people would like to go overseas for an extended period of time, far fewer actually make it happen. Through our Work & Travel program, you can spend up to a year in Australia or New Zealand—earning money, making friends and experiencing life on the other side of the world.

HOW DOES THE PROGRAM WORK?

With more and more Americans interested in living and working abroad—especially in English-speaking countries like Australia and New Zealand—it's becoming increasingly competitive to find overseas jobs. Our programs help you secure international job opportunities while you're abroad. We work with a variety of international cooperators

who help our participants find jobs and housing, and provide in-country assistance during your stay. Jobs can be long-term or short-term, office jobs or manual labor, hospitality positions or retail work. If you're flexible, energetic, and have a good attitude, our program will connect you with jobs and keep you earning money throughout your time overseas.
